2005 European Year of Citizenship through Education

Cultural event in honour of the President of the Italian Republic, Carlo Azeglio Ciampi

The significance of the event

We want to summon the students from different latitudes and offer them the opportunity to reflect on the idea of citizenship, so as to be able, all together, to transcend borders – not only geographical borders - and to recognize
the traces of a common humanity.

We would like to encourage a sense of trust among the students and to help them feel indispensable for the making of a better world.
